#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Patent Number 3,162,495 by Swift ("Swift") in view of Patent Number 1,598,849 by Colby ("Colby"). The food serving table disclosed by Swift incorporates removable food-containing tray 43 that reads on the Applicant's food item display container. Although Swift fails to disclose a container label, the use of such indicia is well known in the art. Colby teaches tags 22 associated with particular display table bins. Said tags 22 read on the Applicant's labels. Accordingly, it would have been obvious to one of ordinary skill in the art at the time of the invention to associate the tags 22 of Colby with each tray 43 of Swift to provide an effective food identification means.

Although Colby teaches fails to teach unique identifier labels being associated with a particular set of food items, such a labeling configuration is an obvious classification arrangement that would have been obvious to one of ordinary skill in the art.

***Conclusion***

The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Patent Number US 6,279,958 B1 by Santa Cruz et al because of its food symbols 26,

Patent Number 6,038,546 by Ferro because of its meal assembly step 310, and

Patent Number 4,689,019 by Tilney because of its meal labels 33, 34 and 35.
